WHOLESALE DISCOUNTS

To Dealers, Club Agents, and Garden Clubs

Make up a club order among your friends and neighbors, and thus get your own plants and seeds free.

We give the following liberal discount—For every order you send us for plants, bulbs, or seeds, to go by express (purchaser paying express charges when delivered) amounting to \$10.00 or over, select extras to the value of 25 per cent. To illustrate:—say you send us \$10.00—select \$2.50 extra, and so on.

OUR GUARANTEE is the best that can be given by any reputable firm, to deliver goods to you in good growing condition. We exercise the greatest care to have all seeds, bulbs and plants pure and reliable. A catalog like ours, offering many rare plants, must of necessity offer plants and seeds of difficult culture, and there are so many causes for failure, over which we have no control, as poor soil, changeable weather, careless culture,—all of which contribute to failure, so that we can give no warranty, expressed or implied, as to description, quality, purity, productiveness or other matter of seeds, etc., we send out and cannot be in anyway responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned and the amount paid will be refunded.

Complaints covering packing, quality or count, must be made to us within five days after receipt of stock.

The Message

Here comes through the mail a winged message;
It hides in this booklet of ours;
It brings you an understanding
Of better Plants and Flowers.
There is joy for you held in the message
If you order your plants from this book,
For they are flowers from Rose Side Gardens;
And the blossoms are just as they look.

LOCATION—Rose Side Gardens, containing eighteen acres, is situated in Warwick, Chester County, in the southeastern part of Pennsylvania—the richest and most densely populated territory in the United States—on the Philadelphia and Reading Railway, 40 miles west of Philadelphia, and 18 miles south of the city of Reading. We are on the old Ridge highway leading from Philadelphia, through historic Valley Forge, to Lancaster—Route 23. This is an improved state highway, dotted with towns and villages its entire length. Scenic splendor vies with historic riches on this old highway, where nature has planted her greatest gorgeousness, and splashed it over with scenery of matchless beauty. It was laid out by Samuel Nut before the Revolution and was the road upon which Washington marched his army.

YOUR OWN GARDEN

IF it is a real one, it is one you ponder over and dream about—where you can be alone with your flowers and only those bidden may enter. How you plant and watch the tender plants until you learn to love them as the dearest of earthly things. Then when the buds appear, how you watch each petal unfold into the glories of the perfect flower! But you may be sadly disappointed in this "Garden of your Dreams" if you have not planted good, pure seed, plants and bulbs, true to name.

Now Rose Side Gardens takes particular pride in keeping everything true to name, and selecting out of hundreds of varieties only the best of the old, with the cream of the new.

Every order from you will be handled in such a manner that you will not only be pleased yourself, but will want to tell your friends of the good quality of our plants and seeds.

We have built a new seed cleaning and storage house which will greatly facilitate the handling of orders, and with post office at our door, railroad station on our grounds, no rents, or no interest to pay, we are able to make our prices lower than many firms with high city expenses.

Growing flowers has always been my hobby from childhood days until now, when I can only be satisfied by growing the best and finest flowers. I want to thank my many friends and patrons who have shared with me the joy of gardening, and trust I may be instrumental in adding still more beauty to this grand old world of ours.

Yours for a Better Garden,

IRA R. AMOLE

Mr. Amole:—I want to thank you very, very much for all the fine, healthy plants and the extra plants you were so kind to send me. We never were treated so royally. Thank you again.

Mrs. D. B.

Laporte, Sask., Canada

The assortment of Glads I got from you were the most beautiful I had ever seen. Many others made the same remark and some had traveled from coast to coast, and also in the U. S. The flowers were like wax and as large as saucers. I am sending for a permit so I can get more this year.

Mrs. D. F.

Muscataine, Iowa

I wish to say that the Hardy Plants came in fine condition, and all are growing. Was more than pleased with the collection.

The World's Best Gladioli

Best Varieties From All Sources—Foreign and American Introductions

The Gladioli is undoubtedly the queen of flowers—Like the rainbow, or the daintiest of butterflies, its gorgeous tints and colorings are wonderful; together with its graceful form, and its remarkable lasting qualities, which make it preeminently the best outdoor cut flower for the home or the florist.

We test hundreds of varieties in our trial grounds, and eliminate all that are not the best of their class and color, so that even the person who is not familiar with the different varieties will be perfectly safe in picking out the color and price Glad he wishes and will be assured of getting the best varieties that he could find anywhere. All our bulbs are grown at Rose Side Gardens, the soil of which is especially adapted to Gladioli. Our bulbs are large and plump, and absolutely true to name. Our fields at blooming time are a revelation to travelers and visitors.
